

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

NEW CORDELL UTILITY AUTHORITY Did Not Meet Monitoring Requirements

Our water system violated drinking water requirements pertaining to the contaminant(s) of concern listed below. Although none of these violations are considered emergencies, as our customers, you have a right to know what happened and what we are doing, or have done, to correct these violations. Customers are not at risk and there is no reason to suspect any potential adverse health effects. Alternative water supplies are not needed.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the following monitoring periods, we did not monitor or test for the following contaminants, and therefore cannot be sure of the quality of your drinking water during that time:

<u>Contaminant</u>	<u>Begin Date</u>	<u>End Date</u>	<u># of Samples Required</u>	<u># of Samples Missing</u>
CHLORINE	1/1/2024	1/31/2024	3	3
TOTAL COLIFORM	1/1/2024	1/31/2024	3	3
LEAD & COPPER	1/1/2023	6/30/2023	20	2

What should I do? There is nothing you need to do at this time.

What happened? What is being done? A third-party lab failed to test the samples provided for Chlorine & Total Coliform. We missed taking two Lead & Copper samples. We have since taken samples and are in compliance.

We anticipate resolving the problem: The problem has been resolved by taking subsequent samples, the system is currently in compliance.

For more information, please contact: Mason Proffitt at 580-660-1399 or 101 East Main St, CORDELL OK, 73632

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
